OVERVIEW
Connect has been created through Cornerstone Talent Management, a system the University uses to recruit, train, manage, develop, and connect UR employees. Launched as UR Talent Web, all employees have access to the site, which can be found on the Human Resources website homepage.

NEW CONNECT COMMUNITIES
In an effort to link employees to other people on campus with similar interests, Connect has been established. This serves as an additional communication tool between groups with common goals, hobbies, and lifestyles. Please note that all employees will be able to view or join each group and see the members of each group; however, students will not have access to this site.

WHAT IS CONNECT?

WHY USE IT?

FIND A COMMUNITY
Connect is built to bring people together. The goal is to link UR employees who have similar goals, lifestyles, responsibilities, interests, and hobbies to each other and grow closer together as a community and as a workplace.

SHARE INFORMATION
Connect is an information holder. Instead of having multiple e-mail threads asking the same question or covering the same topic, Connect provides a shared space where community members can reference relevant articles, documents, links, etc.

START THE CONVERSATION
Connect encourages discussion. Ask a question, respond to a comment, or post an article and create discussion in the community. This can be used for anything from event planning to deep discussion on important related topics.
